Freeman Circa Shell Scheme

Freeman Circa shell scheme gives a fabulous finish, clean lines and the opportunity to upgrade your stand in cost effective ways. Freeman Circa is a modular stand system, built using poles and panels and can be built to any size and configuration. The shell scheme will include walls, fascia, nameboard, and carpet.

The system includes a fascia & ceiling grid for lighting to be attached in the normal way. Spotlights will be placed on the inside of the fascia unless requested otherwise in advance of the show.

If you wish to attach materials to your shell scheme such as posters & graphics, please note only approved double sided tape provided by Freeman is permitted. This tape can be purchased on site at the Exhibitor Service Centre. **Any damage to the wall panels or structure will be charge for.**

If you have any heavy exhibits or need further information, please do not hesitate to contact our **Exhibitor Services team on +44 (0) 2476 309 236.**

Please note: All shell scheme stands are supplied with an electrical package which includes the electrical switchgear box pictured below. Please factor this unit into your stand design or layout. This unit is compulsory and must remain accessible and with your stand footprint. If you have any questions or concerns, please contact us.
